

Improve Member Satisfaction and Lower the Costs of Care

See how **integrated caregivers** and **customized digital care plans** can **positively impact the health of your members**

CareLinx® partners with health plans across the country to provide in-home, non-medical care services to their members. Our innovative approach combines our unique marketplace model with our best-in-class tech platform to:

- **Assist members with activities** of daily living, such as bathing, grooming, transportation, and more
- **Deliver better care** with higher caregiver wages at lower costs than traditional agencies
- **Capture clinically relevant data** in real time and share via the cloud to gain visibility into the home
- **Reduce emergency department utilization** and unnecessary readmissions
- **Identify and act** on early intervention opportunities for improved member care
- **Positively impact social determinants of health** including loneliness, depression, anxiety, and social isolation

Nationwide Network
200,000+ Caregivers
